Dear Ms Scott,

This is a comment on the proposed Comprehensive Conservation Plan under development by your staff.

The only acceptable proposal made is Proposal #1, to leave the refuge as is, (status quo).

Since you have stated that proposal is not acceptable to you, all other proposals made by your office are not acceptable to me.

I do emphatically endorse "Action Alternative; Proposal # 5 for Lake Lowell Deer Flat NWR". This proposal was created by the bass fishing angler community and is the only acceptable alternative for changes to the way the lake is used.

Sincerely,
